Unmanaged series 14 slots chassis

Spotlight

The AN-CH05 provides 14 module slots for any combination of media converter. This is an universal chassis for any type of AD-net universal media converters - same module in AN-CH05 can be used as standalone!

Description

The AN-CH05 provides 14 module slots for any combination of media converter. Chassis can be used as concentrator for AD-Technology unmanaged converter series - for installing in 19' rack. You can take same module out and use as standalone module, and no need guess, how much you will need media converters for chassis, and how much will need for standalone - AD-net has solved this problem, by making our converters - pure universal.

Designed for continuous operation, the chassis is equipped with dual cooling fans and redundant power supplies (optional). Its Plug-and-Play and Hot-Swap features allow installing/removing the converter unit without powering off the chassis. AN-CH05 rack-mount chassis eliminates the external power adapters for AN-UM series media converters and organizes multiple converters in a single unit, which makes it the perfect solution for managing multiple AN-UM series converters.
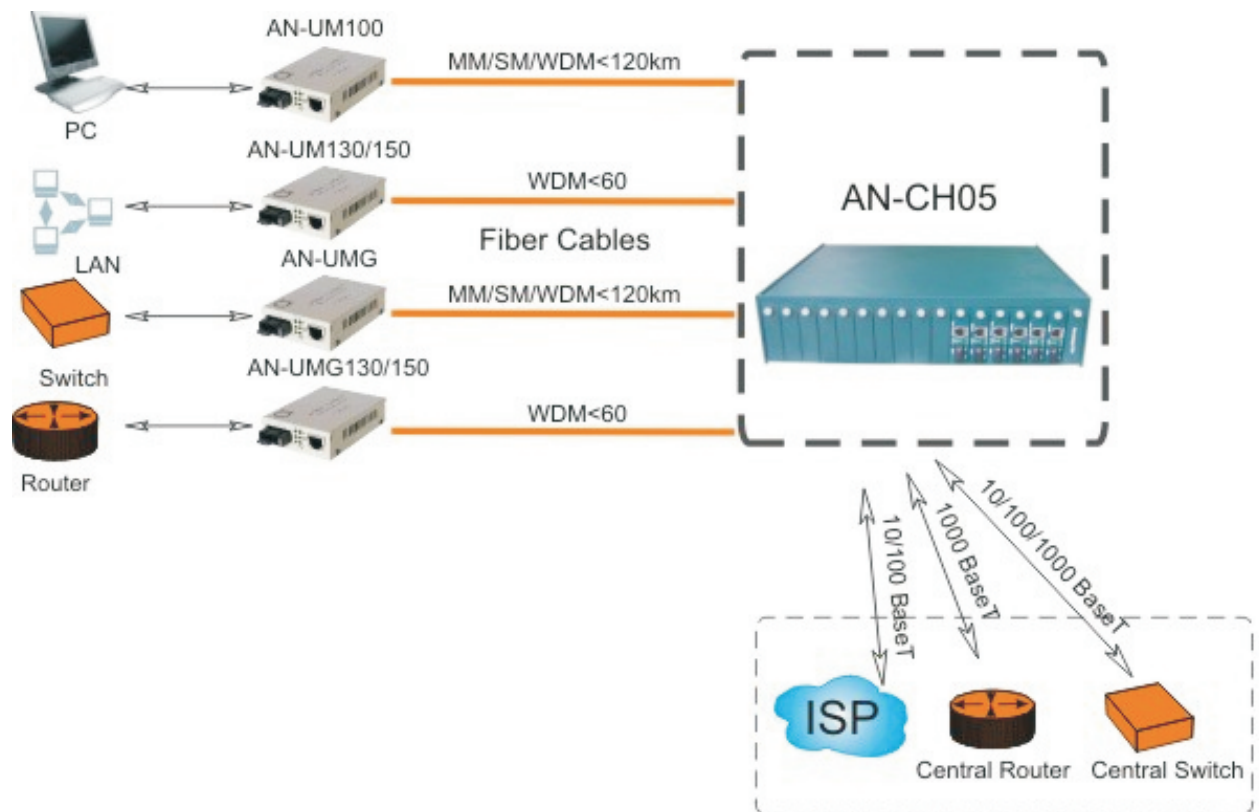

Features

▲ 14 slots for media converter
▲ 9 inch rack mount, 2U high
▲ Internal back up power supply
▲ Plug and play operation
▲ Two power supply units in set;
▲ Compact & easy to install;
▲ State of art AD-net special design.
